

To Whom It May Concern:

This letter is my professional recommendation for Cathi Bales of Nouveau Designs. Cathi and I have worked together on custom window and bedding projects since my employment at Juniper Hill Furniture & Design Center in 2002. I first started in furniture and design in 1991 and have great appreciation for people that I partner with who are as dedicated and professional as I am.

Juniper Hill thrives on assisting our clients in creating the look and feel for their home or business that reflects their personality and style. Cathi Bales does her part to help us achieve that goal by drawing the window design in detail so our client can visualize what we are considering for her, as well as working on a strict deadline as needed, all with a smile. We offer many lines of medium to higher quality upholstery, case goods, lamps, accessories, art, and fabrics. From sofas and chairs to covering windows to painting and faux finishing walls and ceilings and accessorizing at the end, we want to be able to offer a complete room package and Cathi is an important part of achievement

Cathi brings much experience to in the window treatment business. I can rely on her expertise to make recommendations for a design, the correct fabric for the look, and proper application for the clients needs. Cathi and her support staff are exceptional at keeping their production streamlined and trouble free. On few occasions that I have called Cathi with a problem, she addresses it immediately to both mine and my client's satisfaction. I have complete confidence that she will take care of the matter to everyone's satisfaction.
