

October 4, 2011

To whom it may concern,

I have worked closely with Cathi Bales at Nouveau Design for the last six years. From our first project together until today, as I drop off new client fabric, she is a constant source of new and innovative classically well designed custom window treatments and bedding for my clients. Cathi continually improves my initial designs, taking into account any possible issues, saving me time and profits. She has provided hard window coverings, soft window coverings, custom bedding, pillows, and table treatments for my clients. Cathi has always priced competitively, and has consistently completed projects on-time and for the quoted price. Her work is of the highest quality and instillation is meticulous.

Challenges inevitably arise in our business, Cathi is always first to provide creative and quick solutions. Nouveau Design is the only work room I use for sewing and hard coverings. With small projects of hard treatments only, I refer them directly to Cathi, with confidence that they will be taken care of at the point of sale, as well as through the years to come.

Tapestry Design is pleased to refer Nouveau Design for all you custom sewing and window treatment needs.

Sincerely,

*Nicole Marquez*
